This Form represents the most important stage in using this program. Here you will have to select the subjects that the student has selected for their IGCSE/GCSE examinations list. You will observe that Fields S05 (Subject 05) and fields S09 and S13 have been coloured green. This is to remind you of the compulsory subjects that are required for all students in the UK (I believe). It is very important that you get this right otherwise the data entry for the student will not work. PTO.

IGCSE/GCSE Subject Selection

Joshua Babu Class 4A - Has Chosen 8 Subjects

	Subject		Subject
S01	01 Art & Design	S08	08 History
S02		S09	09 Mathematics
S03	03 Computer Studies	S10	
S04	04 Design & Technology	S11	
S05	05 English Language	S12	
S06		S13	13 Science
S07	07 Geography	S14

Return to Mock Examination Data

Joshua has chosen **8** subjects as shown in the screenshot seen above. You will observe that all Joshua's subjects correspond with their ID number, if you make an error here without realising it, you must return to this Form and make your corrections here. It is very important that you get this correct as any error will be seen throughout the next three stages.

On **Delete**

We must now allocate the chosen subjects to the correct Form so that you can input the student's Mock results. You will discover that the weighting for each subject has already been inserted into each Form. I will be mentioning this fact again. The pre-installed weighting calculations cannot be changed. All you have to do is to insert the grades data related to the number of Papers for each subject, which range from two to six.

PTO.
