We have now reached the most important stage of the IGCSE/GCSE preparation. I can only accommodate 14 subjects because Access has limitations on the number of Fields allowed in a Query, which is 255. Each subject uses up 10 Fields, that's 240 Fields without other necessary data.

As all students must study Modern Languages, I have taken the decision to include French and Spanish, but not German, which does seem to be very popular at the moment. Below is the French sample.

Data Entry For Subject - 06 French - IGCSE/GCSE
